## British Standard Pipe（BSP） <br> BSP Tapered（BSPT）

The BSPT（tapered）male will mate with a BSPT（tapered）female， or a BSPP（parallel）female．

The BSPT male has tapered threads．When mating with either the BSPT（tapered）female or the BSPP（parallel）female port，the seal with made on the threads．

The BSPT connector is similar to，but not interchangeable with，the NPTF connector．The thread pitch is different in most cases，the thread angle is $55^{\circ}$ instead of the $60^{\circ}$ angle found on NPTF threads．

| Dash Size | Nominal Size | No．Threads Per Inch | Female Threads Thread <br> I．D．（Inc．） | Male Threads Thread O．D．（Inc．） |
| :---: | :---: | :---: | :---: | :---: |
| －2 | 1／8＂ | 28 | 3／8＂ | 11／32＂ |
| －4 | 1／4＂ | 19 | 17／32＂ | 15／32＂ |
| －6 | 3／8＂ | 19 | 21／32＂ | 19／32＂ |
| －8 | 1／2＂ | 14 | 13／16＂ | 3／4＂ |
| －10 | 5／8＂ | 14 | 29／32＂ | 13／16＂ |
| －12 | 3／4＂ | 14 | 31／32＂ | 31／32＂ |
| －16 | $1^{\prime \prime}$ | 11 | 11／32＂ | 17／32＂ |
| －20 | 1／4＂ | 11 | 111／32＂ | 177／32＂ |
| －24 | 1／2＂ | 11 | 17／8＂ | 125／32＂ |
| －32 | $2{ }^{\prime \prime}$ | 11 | 211／32＂ | 27／32＂ |

BSPT Male

BSPT Female

## DIN $24^{\circ}$ Male \＆Mating Females

The DIN $24^{\circ}$ cone male will mate with any of the three females shown above．

The male has a $24^{\circ}$ seat，straight metric threads， and a recessed counterbore which matches the tube O．D．of the coupling used with it．The mating female is a $24^{\circ}$ cone with 0 －ring，a metric tube fitting or a universal $24^{\circ}$ or $60^{\circ}$ cone．

There is a light and heavy series DIN coupling． Proper identification is made by measuring both the thread size and the tube O．D．（The heavy series has a smaller tube O．D．than the light，but has a thicker wall section．）

When measuring the flare angle with the seat angle gauge，use the 12 gauge．（The seat angle

Female
$24^{\circ}$ Cone with 0－Ring

Male $24^{\circ}$ Cone，DIN 2353

Female Metric Tube
